

Dear FCC,

As an avid radio listener and a 2-3 hour a day commuter, listening to broadcast radio has gotten so bad due to the amount of ads the commercial stations run that I bought a satalite system to get away from the ads. I pay a monthly fee to enjoy this service and not to have to listen to the horrible ads that are running today. They're getting worse!

By trying to penalize free enterprise you, in my opinion, are protecting an inferior product. Please do not change the agreement with sat. radio, it's a great relief in this world of stress!
